Updates You Can't Miss

Industry Intel:

Nexplanon:

When considering whether to purchase Nexplanon directly rather than sourcing it via the pharmacy, the key lies in pricing and profitability.

With a reimbursement price of £83.43, practices must secure a purchase discount of at least 20% for this shift to make financial sense. This margin ensures the change not only covers costs but also generates a worthwhile profit.

Before adjusting your processes, carefully assess supplier offers and potential savings. While a direct purchasing model could streamline operations and improve margins, ensuring it meets this profitability threshold is essential for making an informed and financially sound decision for your practice.

Hello, my name is Beth.

I am the Sales and Marketing Assistant at Enhanced Technology, my role includes creating marketing materials, communicating with clients and working on social media including this newsletter. I began working for the company in July 2024 after I graduated from the University of Lincoln, with a degree in Events Management.

I was born in Jersey but I now live in Lincolnshire with my partner. Outside of work, you'll probably find me curled up with a good book, out walking, or out with friends.

Client Testimonial

"Fabulous service from start to finish! Simple and easy process to set up, then the audit is carried out in the background without us even knowing or having to be involved. Absolutely too good an opportunity for any practice to miss out on and uncovered over £17k of unclaimed payments! Cannot recommend Daniel, Colm and the team highly enough."

Val Huxley, Operations Manager, Severnbank Surgery
