Inclisiran: A Straightforward Income Opportunity for Practices

Buying in Inclisiran offers practices a simple, predictable income stream. With a purchase cost of £45 and NHS reimbursement of £60 per dose (plus VAT), each administration generates a £15 margin. Submitting via FP34PD is quick and reliable, and in-house delivery improves clinical oversight compared to patient-issued prescriptions. Inclisiran fits easily into flu clinics or LTC reviews and supports QOF indicators focused on lipid management. With national backing and growing patient eligibility, offering Inclisiran in-practice benefits both care quality and income – a smart move for practices looking to optimise delivery and finances.

Behind the Scenes: Meet a team member

Hi, I am Owam. As a Client Support Specialist, I serve as the first point of contact for our partnered practices, ensuring they receive prompt, reliable, and friendly support. My role is to carefully research and verify financial information, then reach out to let you know – in a clear, friendly, and professional way – if there's money your practice may be owed. I aim to make the process as smooth as possible by offering reliable guidance and enough information for you to feel confident about the next steps. Outside of work, I'm a big fan of binge-watching a good series or TV show, and I cherish spending quality time with my friends and family. That's my happy place!

Client Testimonial

"GP Profit Recovery have been great and easy to work with. We thought we had good processes in place for making sure we put in claims for PPA prescriptions & Flu submissions so expected them to find only small amounts of missed income. What a surprise to find we were able to submit a claim for nearly £42k which has just been paid. Brilliant!"
